

Dear Kathy,

My name is Mary Vail and I wanted to let you know what a wonderful organization you have. I have recently moved back here to Va. Beach and my son has a learning disability. Since I had one in school, I knew what to look for and decided to get him help. Dr. Katherine Kersey at Old Dominion was a vital asset in getting help for my son, Jack Lewis. She told me of NILD in downtown Norfolk and I decided to meet with Wanda Parks and see if this could work.

To make a long story short, I have been working with Susan Davidson since September and she has turned my son into a confident, successful student. Jack went from a boy who could barely read and had extremely bad handwriting to a student who just placed third in a poetry contest for the state of Virginia. This is such a great program and because of it, my son has made tremendous strides. Together with the understanding of The Friends School in Va. Beach, his devoted Teacher Megan, Susan's devotion, and the work of NILD, my son has become a confident young man who will be able to do anything he wants!!!!

Mary Vail invites parents to email her directly, mary@vail3.com.
